

SAMPLE

IRAN UPSTREAM PROJECTS

Sample

Note: This report is based on information that PetroView believes is reliable. However, PetroView does not represent or warrant its accuracy, completeness, or any other aspect of this information.

The viewpoints and opinions expressed in this report, represent the insight of PetroView as of the date of the report. These viewpoints and opinions may be subject to change without notice.

The current report details EPC/D tenders held by NIOC and related operators in charge of such project's implementation. Projects' progress outlook and IPC projects will be introduced in the upcoming reports.

About Iran Upstream Projects (IUP)

- Based on our wide-range databases, Iran Upstream Projects (IUP) report provides comprehensive view, actionable analysis of Iran upstream sector.
- It is a semi-annual report completely exploring the country's upstream oil and gas projects field-by-field, preparing the precisely qualitative and quantitative data such as scope of works, contractual issue, WBS, CBS, operational details, the number of development and workover wells.
- With the main focus on investigating the EPC/D, IPC, and Buyback contracts throughout total Iran's projects, IUP includes industry's key trends, main players, and portfolio of active developers and drilling contractors.

Scope of Work

Scope of Work

1. EPC/D Projects

- EPC/D Projects by Client
- EPC/D Projects by Region
- CAPEC by Region
- Scope of Work
- EPC/D Projects by Developer
- Drilling Activity

2. EPC/D Projects Specifications

- Details of 33 Projects
 - Zone
 - Region
 - Location
 - Field
 - Main Client
 - Main Developer

- Award Date
- Duration
- Capex
- Objective
- Rigs Requirements
- Wells
- Market Share

3. EPC/D Projects Analysis

- CAPEX of Projects
- Surface and Subsurface CAPEX of Projects
- Subsurface (EPD) CAPEX of Projects
- Surface (EPC) CAPEX of Projects
- Wells
- Rig Activity Estimated
- Subsurface Cost Estimated per Well
- Capex of Projects by Developer

Scope of Work

- EPC/D Projects: [Time Schedule](#)
- Remaining duration Time of the Projects

4. Drilling Contractor Analysis in Iran

- Rig Utilization (Land)
- Rig Utilization (Offshore)
- Drilling Contractors (Land)
- Drilling Contractors (Offshore)
- Drilling Region

5. Upstream Clients' Profiles

- NISOC
- ICOFC
- PEDEC
- NIOCEXP
- IOOC
- POGC

Methodology

Methodology

- PetroView takes a survey of Iran upstream projects to collect projects data, progress, need for rigs, objectives and contractors. The information in the “Iran Upstream Projects” is collected in the form of detailed project SOW based on current progress and location and type of contracts.
- PetroView uses the internet search engines to identify published articles.
- PetroView is actively engaged in developing plans of country to track best insights.

Reviewed Companies

- NISOC: National Iranian South Oil Company
- ICOFC: Iranian Central Oil Fields Company
- PEDEC: Petroleum Engineering and Development Company
- NIOCEXP: National Iranian Oil Company Exploration Directorate
- ISTI: Vice President of Science and Technology
- IOOC: Iranian Offshore Oil Company
- POGC: Pars Oil and Gas Company
- NIDC: National Iranian Drilling Company
- NDCO: North Drilling Company
- OEOC: Oil Exploration Operation Company
- PEDEX: Pars Energy Gostar Drilling and Exploration Company
- TDDC: Tadbir Drilling Development Company
- DDC: Dana Drilling Company
- GPTK: Global Petrotech Kish
- NK: Naftkav Kish
- PTS: Petro Technical Services
- POA: Petro Omid Asia
- PGFK: Petro Gohar Farasahel Kish
- DCI: International Drilling Company
- POKC: Petro Orim Kish Company
- OKDC : Ostovan Kish Drilling Company
- NIOC: National Iranian Oil Company
- PTP: PetroTadbir Pars
- PPARS: Petro Pars
- PEDCO: Petroiran Development Company
- PSIK: Petro State Iranian Kish
